The prosecution here resied, and the Court took a recess.

THE DEFENCE.

BIT. Haddon, of course for defence, made his opening statement in which he conceded the death of Charles and Robert Johnson, but thought that the prisoner in this case should not suffer the extreme pennity of the law. The counsel then addressed a few remarks to the Court as to what statute the denone came under. If the prisoner is not guilty, as charged, then it must be justification on the part of the prisoner, then it must be justification on the part of the prisoner, then it is an extraordinary act of murder. The human mind is actuated by some motive, but there has been no explanation offered by the presecution—no motive on the part of the prisoner. The counsel then argued that the prisoner must have been laboring under excitement of mind, occasioned by the liquor that he had imbibed the night previous, and was not in a condition of redection.

Mary Gorman, sworn—I reside in Bedford; I am a sister of the prisoner; he lives in Raymond street; he lived with me for ten months, up to the time he was taken; had never seen him but once come home drunk; he was peaceable and quiet; he always had a fashion of getting up in his sleep, and it took two and three loud calls to wake him; this was very often; his conduct was always alike; at these times he would not say or do anything; he is a hout 27 years of age; he is a laboring man; he generally was in good health.

Cross-examined—He has been in this country about seven years he was peaceable when he got up in his sleep; when he came home drunk, he was quiet, don't know exactly the time; his father lives in Raymond treet.

Mrs. Mary Gorman—I am the mother of the prisoner,

Mrs. Mary Gorman—I am the mother of the prisoner, sichael, at the bar; he was always a quiet boy; he is a aborer; and was always at it, he was no drinker; his sealth was not very good; he would be frightened in his eleep, and it was a hard job to keep him quiet; this hap-

John Flinn, sworn—I reside at the corner of Navy and

Bolivar streets; have lived in Brooklyn nine years; have
known Gorman about five years; have always known him

The defence here rested, and Mr. Hadden, counsel for

the prisoner, summed up.

Mr. Underhill, District Attorney, summed up for the

people.

The Judge then charged the jury, after which they retired to deliberate upon their verdict, but had not agreed
when the Court adjourned till this morning at eleven

o'clock.

It was understood last evening, at a late hour, that the jury stood ten for conviction and two for acquittal.

COUNCIL—DISOADERED STATE OF APPAIRS—A BRITISH BRIG BURNED.

By the arrival at New Orleans, on October 18, of the schooner Star, we have news from Tampico to the 4th inst., the day on which she sailed from that port.

About the 19th of September some few citizens had taken it upon themselves to endeavor to abrogate the Ceballos tariff which had been declared in force under the plan of Ayutla, and otherwise to assume authority not conferred upon them by their fellow citizens. The latter accordingly called upon the city council to meet and take steps to prevent these proceedings. The council, however, did not meet, and gave them reason to lose all considence in them. The citizens then held a meeting themselves and proceeded to remove the objectionable members of the existing council, and appoint others who immediately entered upon their dutics.

The new council was composed as follows:—
Political Chief of the Department, Senor Don José Manuel Jauregui; lat Alcalde, Don Manuel J. de Solortano, 2d Alcalde, Don José Acuna; 3d Alcalde, Don Capriano Guzman; lat Regidor, Don Gayo Faradas; 5th Regidor, Don Diago Flores; 6th Regidor, Don Ongonio Rivera; lat Syndie, Don Cristo-bai Tractiers.

Sickles, for Senator of the Third district. The meeting was large and enthusiastic, and adjourned to resolve itself into a grand torchlight procession. Mr. Sickles spoke and was well received, this is the first time in this city any candidate has taken the stump in his own behalf, and it would be well for other candidates to follow suit and let the peeple see them. From what occurred last night, it seemed as though the system was indigenous and not an exotic in this laftfude. Mr. Sickles aj-caks in the Sixth ward on Monday night, and in the Fifth on Wednesday.

LIQUOR DEALERS' NOMINATIONS. 

It being after 10 o'clock on Friday morning when these nominations were made, the convention adjourned to meet again on Monday evening to complete the ticket. Col. French objected to making nominations, as it was directly opposed to the platform of the Liquor Dealers Society, which takes ground against nominating a weak candidate when all in the field are favorable. He distinctly objected to Messrs. Tomlinson and Schaffer on precential and not on personal grounds as he (Col. French) had a high regard for them, though he did not deem it expedient to nominate them.

It is supposed the Central Convention of Liquor Dealers will reject the nominations made by the County Convention.

The Hauor dealers of the First Assembly district, met last night at 15 Beckman street and endorsed Michael

Byan the hard candidate for Assembly. The Second Ward delegates protested, on the ground that all the candidates were ravorable to the liquor dealers, and it therefore was wrong to show partiality. An appeal will be taken to the central organization. THE LIQUOR DEALERS' TICKET.

THE LIQUOR DEALERS' TICKET.
TO THE EDITION OF THE HIGHAID.

I perceive in a report of what purports to be the action of a State Committee, copied from the Albany Allas into your paper of this morning, that my name is used as one of said committee, repudiating the State ticket made by the Liquor Dealers' and Constitutional Rights Conventions. I would state, sir, that the use of my name in that connection was an unwarmatable liberty, not to say impertinence, as I know nothing of any such bogus affair as this appears to be; and, furthermore, I do not now belong to any State committee, as said committee expired by the appointment of another State committee to succeed: it. I hall support the State ticket made by the inforesaid conventions. By making this correction you will confer a favor on THOMAS J. GERALD.

LIQUOR DEALERS' SIXTH SENATORIAL CONVENTION.

You have made a slight mistake in your paper of vesterday, about the number of votes given to Messrs. Munday and Brooks.

As one of the secretaries of that convention I wish to correct it. You state that Mr. Munday got ten votes, and Mr. Brooks three. This statement might give the public to understand that the convention was not fully represented by the different wards. The truth is there were twenty members present, and on the vote being taken, Mr. T. J. Munday received fourteen votes and Mr. Frastus Brooks four. Two of the members declined to vote, which you will see makes up the twenty.

The boys from Randall's Island, under the care of the Ten Governors, paid another visit to the city yesterday morning, and marched through the thoroughfares in military order, displaying a wonderful improvement in discipline and their general appearance since their last visit. Between II and 12 o'clock, they appeared in the Park, in front of the City Hall, and attracted a large crowd of spectators. After going through their military exercises in a very creditable manner, the boys proceeded to the Governor's roots, where they formed themselves into a column three file deep, and were reviewed by Mayor Wood. One of the boys, named Edward Ryan, ten years of age, addressed the Mayor in a neat little speech, during the course of which he dwelt gratefully upon the kindhose of the Ten Governor's. The Mayor replied that he was glisd to see the boys looking as healthy and so well provided for by those to whose care they were entrusted. He said that he and all the city authorities felt the deepest interest in their present weifare and future prosperity in His, and that they eight to avail themselves of the opportunity afforded inner for improving themselves in mental and physical culture. The highest positions were open to them as well as to others, and they could obtain them by diligence, trathfulness and obedience to their teachers and superiors. Account to the Sar Josefu Walken.—This vessel met with an accident on Thursday afternoon that well nigh ended the work of the last two months. The workmen have been successful in taising the hulk of the vessel, and had it sustained by the naual machinery of tressels, ropes, chains, cross beams and props. The water was pumped out and all was in readiness to tow the hulk out of the slip. On Thursday afternoon the water became unusually low and the immense weight of the wreck proving too heavy for the cross beams, they gave way, and the hulk fell to the water, bringing with it all the machinery and upsetting the engine but fortunately for the contractor, die not sink.
